THIS IS UNEVALUATED INFORMATION

25X1X

1. The Labeŕy foundry near Gliwice (Gleiwitz) has recently been expanded. A new section has been added and is called Labeŕy Foundry #2.
2. The plant produces Soviet Stalinec - type tanks and 1.5 cm. armor plates.
3. It is reported that tank testing grounds have been set up behind the foundry. It is alleged that motors for the tanks and other parts are shipped in from Russia in "covered" trains which are guarded by army troops.
4. The engineers and technicians at the plant are largely army officers on active duty posing as civilians. Army labor brigades are also at work at this foundry.

25X1A

Comment: [] probably referring to the J. Stalin Foundry in Labedy, formerly known as the Labedy Foundry and previous to that as the Hermann Goering Werke.
